JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Thursday - 3 December 1964

1. (Secret - GLC) Delivered to the Joint Committee on Atomic Energy copies of NIE 4-2-64, NIE 22-64, Annex to NIE 22-64 and NSI-22-64-54 (Indian Nuclear Energy Program). Separate copies of the NIE's were left with the Joint Committee for retention in their repository for the use of Colonel Glenn Smith of the Senate Preparedness Subcommittee staff. (This is in keeping with the arrangement that was established with all parties for the handling and keeping of the NIE on the Soviet Atomic Energy Program.)

Mr. Murphy mentioned he had called Mr. McCone to "chat with him" but learned he was not in the city. He said in the near future he would like to bring some subcommittee classified trash to the building for incineration. At that time he said he would like to drop in to see Mr. Elder.

For his information, I advised Mr. Murphy that it appeared that [redacted] would appear before the Internal Security Subcommittee at some time in the near future in executive session. The Committee is primarily interested in discussing matters pertaining to [redacted] with respect to [redacted]. I advised Mr. Murphy that [redacted] has some information regarding an early gaseous diffusion plant but had no information on atomic energy matters since 1951. Murphy thanked me for mentioning this and said he thought it would be interesting to see the cleared testimony of [redacted] with regard to the [redacted]

4. (Secret - GLC) Met with Colonel Glenn Smith at his request to discuss the interest of the Preparedness Subcommittee in arranging for an Agency briefing shortly after the first of the year. Smith said that one of the three priority items on the subcommittee's calendar for the first of the year is a series of hearings on implementation of the nuclear safeguards. He anticipates that these hearings will run for 4 or 5 days. It is the desire of the subcommittee that the Agency update its briefing on matters pertaining to the nuclear test ban treaty and other items of interest in this connection. Smith has given us a list of items which the subcommittee would like covered. He has noted that no official transcript would be taken using in lieu thereof a summary memorandum such as was prepared by Mr. Houston at the last briefing.

(cont'd) I advised Colonel Smith that in keeping with the arrangement made for the safekeeping of the Soviet MIK, I had left with the Joint Committee on Atomic Energy for his use a copy of the MIK on [redacted] and a copy of the Nth Country estimate.

25X1

Colonel Smith said this arrangement had worked out quite satisfactorily and appreciated our making these arrangements.

3. (Confidential - GLC) Mr. Poller, in the office of Senator Thomas J. Dodd, gave me a resume and letter to the Senator from [redacted] Connecticut, who is interested in working for the Agency in a clandestine capacity. This material is being forwarded to the Office of Personnel.

5. (Unclassified - GLC) At his request, I met with Mr. Martin, in the office of Representative Edward J. Gurney. Mr. Martin said that a crank, who frequently writes to the Congressman, has told him that a retired Army major of his acquaintance has a "plan for Cuba" which he wishes to discuss directly with Mr. McCone. Martin said this crank has demanded all sorts of secrecy and does not want names disclosed at this point. Martin said he is trying to slowly dislodge this individual but just wished to mention the matter to us. If he has further difficulties he will be in touch with us.
